240 YEARLING BULLS SELL

Building the *Future* with **SCIENCE**

# Welcome TO THE 17<sup>TH</sup> ANNUAL SALE

Welcome to the 2026 Bulls of the Big Sky sale. This is their best set of bulls offered to date and in volume. No matter what you are looking for to fit your program they have it. No matter if you are looking for purebred or SimAngus bulls they have it in volume. Not to mention a great selection of growth, maternal and calving ease bulls. To top it off this sale has one of the largest offerings of red Simmental and SimAngus bulls in the region. Again, no matter what your needs are, I am sure you can find it here. All of the data has been collected, and these bulls have been culled throughout the development process for quality, disposition, structure, and feet. What is in this sale are the bulls that have passed all the tests.

This group of breeders has a unified vision to produce the best product for their customers. Many of these bulls were produced using RightMate technology and all the bulls have been RightChoice tested to help make your buying decisions easier. Please refer to the RightChoice page in this catalog for more information. If you attended the field day back in January, you learned how you as a commercial producer can make precision breeding decisions by collecting DNA on your cow herd and matching it to bulls in this offering. By using RightBull you can meet your goals more rapidly by using DNA technology. If you are interested in the future talk to one of the Bull of the Big Sky members, one of us on the Allied team.

In 2024 the Bulls of the Big Sky purchased membership in Allied Feeding Partners with the goal of helping their bull customers with feeder calf marketing. They care about your success and this investment further proves their commitment to you, the bull customer. If you have calves to market, please contact us so we can assist you get top dollar for your calves produced by these top-notch bulls.

Again, we are very excited about this offering and if you have any questions please feel free to contact one of us on the Allied team.

Sincerely,

*Marty Ropp, Rocky Forseth, Corey Wilkins and Jared Murnin*

# ABOUT THE BULLS

## Bull Warranty:

All bulls sold are sold as guaranteed breeding sound for one breeding season, not to exceed ninety (90) days. This guarantee does not include loss of use due to abuse, neglect, illness due to poor nutrition or physical health, and/or acts of God. In the event a Buyer has any problem with a bull prior to or during the bull's first breeding season the Buyer shall immediately contact the breeder of the bull to report a claim. A statement of diagnosis from a competent veterinarian will be required with the submission of each claim. Bulls will be covered for unsoundness not caused by illness or foot rot. Seller reserves the right to demand return of the bull at the Seller's sole discretion, and/or request a second opinion from a veterinarian of Seller's choice. In the event of a valid claim submission, Buyer will be provided a replacement bull of comparable quality if Seller or any other Bulls of the Big Sky member has one available. In the event a replacement bull is not available, the Buyer will be given a full credit, minus salvage value, to be used in a future Bulls of the Big Sky sale. Bulls of the Big Sky members will not be held responsible, under any circumstance, for crediting any settlement amount exceeding the purchase price of a replacement bull. We are confident in our bulls, and we will work with any Buyer in good faith to correct any issues with a bull. In return, we ask the Buyers to use common sense and good management practices, providing adequate shelter and feed for young bulls, and keeping in mind the bull's age at turnout.

## Announcements:

Announcements made from the auction block during the sale take precedence over printed material in the catalog or other printed material associated with this sale. Anyone attending this sale attends at their own risk. Breeders and sale force will not be held responsible for any personal injury for attending this sale.

## Volume Buyer Discount:

**Buyers purchasing 5 or more bulls will receive a 5% rebate** on their total purchase following delivery and before June 1.

## Notice to Out of State Buyers:

Please know your state health requirements prior to sale day. If your state requires Trich testing on 12 months or younger, the bull(s) will not be able to leave Montana immediately after the sale and must return to Veltkamp's for testing. Though Bulls of the Big Sky pays for the cost of all regular health papers, the cost of Trich testing and other state specific health requirements will be the responsibility of the Buyer and will be billed to the Buyer.

## Notice to Canadian Buyers:

Bulls of the Big Sky will provide free delivery to the US side of Port of Entry at Sweetgrass, MT and pay for the cost of regular health papers. The Buyer is responsible for the cost of additional Canadian or Provincial Health Requirements.

## Feeding and Delivery:

After the sale, the bulls will be fed free of charge at Veltkamp's Bull Development Facility in Manhattan, Montana until April 1, 2026, or until scheduled delivery may be arranged. Following the sale and prior to bull delivery, each bull will receive a Breeding Soundness Exam. Buyers may anticipate scheduled bull delivery to start the last week of March or early April. **If you have special delivery requests, please let us know at the time of the sale. If a Buyer wishes to keep their bull at Veltkamp's beyond April 1st, feed and freight will be the responsibility of the Buyer.** Feed charges will accrue at \$4.50 per head per day for Buyers that request their bulls remain at Veltkamp's facility after scheduled delivery times.

- **Early Delivery:** Bulls taken by the Buyer immediately after the sale will receive a \$150 discount off the purchase price of their bull. For all bulls requiring delivery prior to scheduled delivery times (in or around late March), the most economical trucking available may be arranged at Buyer's expense. *Buyers of early delivery bulls must have a Breeding Soundness Exam performed prior to turnout for the Bull Warranty to remain in effect.*
- **Scheduled Delivery:** Scheduled bull delivery starts in late March or early April. Bulls selling for at least \$5,000 will be delivered for free up to the first 500 miles from Manhattan, Montana. All bulls selling for less than \$5,000 will be delivered to the nearest central delivery point that is convenient to Seller. All bulls selling for at least \$5,000 and requiring delivery over 500 miles from Manhattan, Montana, will be delivered to the nearest central delivery point convenient to Seller, or the most economical trucking available may be arranged at Buyer's expense.

## Retaining Semen Interest:

The bull buyer will receive full possession, 100% salvage value, and  $\frac{3}{4}$  semen interest of any bull purchased in this sale, while the individual selling ranch ("Seller") will retain  $\frac{1}{4}$  semen interest in any bull that it sells. Seller's retained semen interest is a royalty interest that entitles Seller to  $\frac{1}{4}$  of any revenue from the sale of that bull's semen. Seller's retained semen interest shall remain even if the bull, or any interest in the bull, is later sold to a third-party; and, the Buyer shall be solely responsible for notifying any later third-party buyer of the Seller's retained semen interest and for ensuring that Seller's retained semen interest is satisfied if semen is ever sold. Seller will not be responsible for any expenses directly or indirectly related to semen collection or promotion of a purchased bull, unless the Buyer and Seller agree otherwise in writing prior to semen collection. Seller's retained semen interest also includes the right of Seller to collect semen on the purchased bull at Seller's sole expense and at the Buyer's reasonable convenience.

# Improved Buying Confidence with Greater Genomic **ASSURANCE**

Access to more and better information has always been key to making wise decisions. The evolution and improvement of genetic evaluation tools too has given us an ever-clearer picture of the true genetic makeup of cattle and thus a better view of the value proposition. RightMate, powered by Top Genomics LLC is taking the evaluation of genetics and genomics one giant step further. By combining specific genomic information with the long-proven value of EPDs, this new advancement in technology improves our depth and precision when evaluating the actual ability to transmit value and profit.

The 3 Accreditation Logos below are designed to simplify bull selection and improve buyer confidence by more accurately describing the genetics offered and by reducing risk. What this means to you as a customer is a much greater assurance that you are getting both what you want and need from the genetics you purchase. What it means to your seedstock provider is access to RightMate technology that simply sets them apart from the rest of the industry.

**ACCREDITED GENOMIC PLUS** – For the majority of producers who simply need consistent and balanced genetic improvement, without genomic setbacks, G+ Accredited bulls should be on your list for premium purchase. These sires will absolutely move you forward for both cost reduction and income producing traits and substantially reduce risk when compared to all other evaluation programs. It's simple, the right genes are in these bulls to help secure a profitable future and they have great EPDs to match!

**ACCREDITED CALVING EASE** – Simply find bulls with the ACE logo for third party Accredited, secure Calving Ease bulls. Though we have had tools in the past to assist in choosing heifer bulls, we've never had one nearly this effective. The reduced risk that comes with this genomic certification will simply make your decisions easier and your heifer calving season more successful. Purchase special purpose ACE bulls with confidence. They will deliver consistent and predictable calving ease.

**ACCREDITED TERMINAL MATE** – Just like an ATM machine makes it simpler to access your cash, the ATM Logo highlights bulls accredited to generate extra cash income as soon as your next calf crop! These bulls are meant specifically to use only on mature cows and for the purpose of adding performance, pay weight and end product value to market.

A exceptional set of flush brothers in lots 1-3! This mating has done everything we hoped for and then some. Tremendous spread from birth to yearling and top maternal rankings for CE, Milk and Stay backed by PLR Sapphire and Gibbs Louise. Newsbreak is the complete package, being clean made with extra length and correctness from end to end. He does carry the red gene for those interested in producing the next generation of reds.

Nakoda is an absolute stud! A bull that is deep ribbed, stout made and very attractive on the move. He has shown his ability to add growth as he was the top gainer for LBRS over the first weigh period. We are extremely excited about how he has progressed on test, but believe the real place he will shine is in the beautiful females that he could produce.

ATM

Here's an opportunity to own a full sib to LBRS Integrity, who was last years high seller to Pleasant Hill Farms and Billingsley Farms. Phenomenal look and free in his movement with females and sires on both sides of the pedigree stacked for foot and udder quality. His dam entered the donor pen this last year and we are extremely excited about the calves that are hitting the ground as I type this footnote. Fault free genetics here with 11 EPDs in the top 25% or higher.

Nautilus has been a standout from day one. Being one of the first LBRS Limited Edition bull calves we have watched excitedly as he has matured. He packs a lot of mass on a moderate frame. We can't say enough about his young dam. She is a deep broody female with flawless structure, great feet, beautiful udder and a quiet, easy going disposition. Heifer bull prospect that packs a punch with a Right Choice 5 G+ Ace badge.

LBRS NAUTILUS N571 Sells as Lot 9.

Soft made and sound structured, this Ace stamped Eclipse son is so much more than just a heifer bull. While being raised by his hard working Arrowhead dam as a first calf heifer, he posted a BW ratio of 92 and a WW ratio of 103. To go along with his striking phenotype he also has a balanced EPD profile with 15 EPDs at or above 35%.

BRIDLE BIT ECLIPSE E744 Sire of Lot 12.

Attractive and clean in his lines, this Eclipse son has quietly gotten it done. He was the highest ratioing calf for birth weight and still weaned off at 753. His young dam phenotypically is the most attractive and correct red cow that we have on the ranch. Genetically he does a lot of things right with a 5G+ Right Choice score and a EPD profile that pushes API over the 180 mark and TI over 100.

Powerfully made Logan son with extra length and dimension throughout. LBRS Logan was the high-seller in the 2024 Bulls of the Big Sky Sale to Gaston Hornung and he is getting it done producing attractive sons and daughters that pack a lot of punch and grow. Notable himself has the physical makeup and build to cover some country being free moving and athletic in his stride. He is a bull, disposition wise, that likes just a little more personal space than some. His dam is a beautiful cow with a picture perfect udder and great feet.

LBRS NOTEABLE N150 Sells as Lot 14.

We used Logan to exploit the red gene to create the next generation of outcross reds. Nobility is the result and he is a good one, masculine, deep and structurally sound. He will add pounds to your next calf crop. His dam is a deep, broody Bieber Atomic half blood that we appreciate for her great udder structure.

LBRS NOBILITY N17 Sells as Lot 15.

Wide based and deep quartered Innovate son as you view him from the rear. We have liked the Innovates over the years for their clean attractive look and ability to take off and grow after birth. His dam has been a power cow with 8 calves ratioing 104 for WW and four calves ratioing 107 for YW. He is a bull I would recommend for mature cows only.

Lot 63 has been an eye catcher from day one. His momma did a nice job in some hard, dry pasture this summer, and this bull commanded a 738# actual weaning weight at not quite 5 1/2 months of age with no coddling. There's not much more you could ask of a stylish bull calf and his hard working, first calf dam. He's balanced across the board in his EPD profile, he sports an ATM Right Choice badge and offers a top 25% TI. Put him on a set of red cows for a fancy set of RWF calves and watch the heterosis burn.

REDHILL BURLEY 99J Sire of Lot 64.

Lot 64 was the calf at side from a pair purchased in the Eichacker Simmentals 2025 sale. He's been a big, long-bodied bull from day one, and looks like he'll add some dimension and pay weight to his calves - consistent with the reputation of the Redhill Burley sons. He excels across the board in his EPD profile and sports a Right Score 5 and G+ badge, along with a top 10% Terminal Index. If pretty is as pretty does, this 3/4 SM x 1/4 AR bull has the genomic goods to get it done.

RYMO POWER UP N95N Sells as Lot 174.

172 is out of a bigger framed cow but made a great match with the moderateness of Next Up. Beautifully balanced numbers across the board to rank him in the top 10% for API and TI. His dam raised both calves and weaned off over 1400 lbs. and bred back.

A super nice Next Up out of a first calf Honor heifer. His numbers are the most balanced and look good on heifers or cows. Top 15% API and TI.

Out of a differently bred 10 YO cow, lot 174 grabbed all the fancy. He is strong in growth, REA, YG, and Stay.

LBRS Genesis is the #1 proven STI sire in the Simmental breed because his calves work. This is the 3rd Genesis x L49G mating because it works. Super deep and great performance with a white face and goggle eyes. Weaned off at 815 lbs. Here is an opportunity for a chromed growth and performance bull ranking in the top 10% API and 4% TI.

RYMO GENESIS AXIS G49N Sells as Lot 210.
